Dear Nelly,

I'm sorry to hear that you can't sleep very well. And I think the problem is that you think too much about the things which have happened in daytime. First, you need to relax yourself. Don't care about the things too much. Next, do some exercise before you go to bed. It will help you go to sleep very quickly. And you should listen to some light music when you lie in bed. Have a try, please.

Our school will have hand-in-hand activities with a

school in the poor area. I am going to be a volunteer. I can go there in summer holidays. I'm going to give away some school things. I know they don't have enough money to buy them.

I am good at English and computer. Maybe I can help them with these two subjects there. I can also help them do farm work. I think it must be very interesting. I can not only help them but also get entertainment.

To be a volunteer is really a good idea.

One possible version:

I think children should help their parents do some chores, like making the bed, cleaning the room and so on. They should not spend their time only on their schoolwork. It's important for children to help their parents do chores. By doing this, they can learn to take care of themselves. Doing chores can also help them to learn to be independent. The earlier they learn to be independent, the better it is for their future.

The proper way(s) for students to relax

I am a student of Class 3, Grade 8, No. 22 Middle School. Recently I have made a survey of the students in my class on ways to relax after class.

There are 56 students in my class (29 boys and 27 girls). Different students have different ways to relax. Half of the students often watch TV. Ten students like to play computer games while eight enjoy listening to music. Five students think doing sports is a good way and another five are too busy to relax.

As we study too long every day and suffer from too much pressure, every student should choose proper ways to relax. In my opinion, watching TV or playing computer games is not a proper way to help us relax. I think taking exercise is a proper way because it can rest our brains and eyes. Besides, it can help improve our health. Therefore, I often play ping-pong after class. It's really helpful to both my health and my study.

The Yangtze River

The Yangtze River is the longest river in Asia and it's also the third longest river in the world. It is more than 6,000 kilometers long. It starts from Qinghai Province and goes into the Pacific Ocean. There are many kinds of fish in the river and some of them are endangered species. People love the Yangtze River, but it has been polluted. We should try to protect it as it is very important for China. We should stop putting rubbish and pouring waste water into it. I hope it will become more and more beautiful.

The Story Changed Me Forever

I am a middle school student and my name is Li Ming. I used to be lazy and wasn't a good student. I didn't work hard and couldn't get good grades. Sometimes I even couldn't pass the exam. But I read a book called *Robinson Crusoe* last year. Robinson didn't give up when he was in trouble and succeeded at last. I came to realize that I must study hard and never give up.

Ever since then I have studied hard. Now I am one of the best students in our class. I believe nothing is impossible if you work hard.

Hainan—A Place You Will Never Forget!

Have you ever been to Hainan? It is a wonderful
place to take a holiday. The weather there is very
warm. There are lots of beautiful beaches and
interesting places in Hainan, such as Tianya Haijiao,
Wanquan River and so on. I have been there twice. The
second time is in last winter. I went there with my
parents. We went swimming, fishing and diving. We
relaxed lying on the beach and ate much seafood. We
had a great time there. We all felt happy and want to
go there again this year.

My favorite thing

My favorite thing is a beautiful sweater. I have had

it for six years. My grandmother made it for me. It feels very soft and comfortable. When it gets cold, I always wear it to school. But last year my grandmother died. As soon as I see the sweater, it will remind me of her. She loved me very much and did many things for me. When I was young, she tried her best to look after me. But now I can't see her any longer. I will study hard and won't let my grandmother down.

I'm very glad to write to you. I have a lot of troubles these days. Every day I have a lot of homework to do. I don't have enough time to sleep. I nearly have no time to play sports. My friends and I can hardly find time to talk, or play together. When I get back home from school, I'm not allowed to watch TV, surf the Internet or listen to my favorite music. I don't know what I should do. Could you please give me some suggestions?

Best wishes!
